Principal Product Designer

Multidisciplinary Product Designer based in NYC with a generalist mindset and experience spanning 0→1 and established products, bringing clarity and momentum to complex problems.

EXPERIENCE

Regal.AI May 2022 - Present

Principal Product Designer (Founding)

- First design hire responsible for establishing the product design processes, UX strategy, research, and design systems for the Regal platform.
- Defined product vision and strategy alongside founders, PMs, and engineering leaders, helping transform Regal into an AI agent platform and contributing to growth from <$1M to $14.6M in AI Agent ARR.
- Owned end-to-end product design, influencing roadmap prioritization across multiple 0→1 product areas such as AI Agent configuration and automation interfaces used by enterprise customers.
- Built, scaled, and governed Regal's design system, accelerating product development and enabling consistent patterns across the platform.
- Leveraged AI-assisted coding workflows like Cursor and Claude to prototype, validate, and ship production-facing product experiences.

Handy October 2017 — May 2021

Product Designer

- Served as design lead for Handy’s iOS and Android apps (Pro and Consumer) while driving end-to-end product design across a broader product ecosystem.
- Led the design and validation of a new Search & Discovery experience, achieving ~55% search engagement, increasing category click-through rates by 0.5–1.2%, and generating incremental revenue in key service categories.
- Built and maintained Handy's Style Guide and Component Library.

Jump Ramp Games May 2017 — October 2017

Junior Art Director

- Designed original game art and growth marketing creatives such as banner ads and video content for Lucktastic (1M+ DAU) and weekly series (45–65K viewers).

Kiip Sep 2014 – May 2017

Lead Graphic Designer

- Created national campaign creatives for BMW, Capital One, Home Depot, Listerine, and Snickers.
